

Pastoral Care Smartphone Contacts

With the redevelopment of Pastoral Care 12 a new and exciting product has been released that can be purchased as an add on to Pastoral Care 12.....Pastoral Care Smartphone Contacts.

Smartphone Contacts publishes information to a Google Contacts account, it is this Google Contacts account that can be synced with your smartphone to display all the information published. Not only can you view the published information via your smartphone but you can also access it from any device that can display internet pages, all you need to do is to log into your Google Contacts account.

Google Contacts is a free service provided by Google so once you purchase the Smartphone Contacts program there are no further costs.

Pastoral Care Smartphone Contacts can publish all information within the Pastoral Care 12 family file, either this information will be displayed within specific available fields made available within Google Contacts, like address, phone and email address or the data will be displayed in the Notes area, like status, groups, ministry, visitation etc.

Two modes of operations are available in Smartphone Contacts, individual and family mode, depending on the mode selected will determine how the information will be displayed within Google Contacts.

An option exists for publishing records only if data exists, so for example you can publish just the families that have visitation records.

Pastoral Care Smartphone Contacts can handle multiple Google Contacts accounts as well as having the ability to create groups within the accounts for those smartphones that supports groups.

The typical devices that can be synced with Google Contacts are all android phones, Iphone, Android tablets, Ipad & Ipod's.

Pastoral Care Smartphone Contact can be purchased from the Pastoral Care web site www.pastoralcare.com.au
